1 Introduction

1.1	Reasons for GR-1275-CORE Reissues	1-1
1.1.1	Reasons for GR-1275-CORE, Issue 12	1-1
1.1.2	Reasons for GR-1275-CORE, Issue 11	1-2
1.1.3	Reasons for GR-1275-CORE, Issue 10	1-3
1.1.4	Reasons for GR-1275-CORE, Issue 9	1-4
1.1.5	Reasons for GR-1275-CORE, Issue 8	1-4
1.1.6	Reasons for GR-1275-CORE, Issue 7	1-6
1.1.7	Reasons for GR-1275-CORE, Issue 6	1-6
1.1.8	Reasons for GR-1275-CORE, Issue 5	1-7
1.1.9	Reasons for GR-1275-CORE, Issue 4	1-7
1.1.10	Reasons for GR-1275-CORE, Issue 3	1-8
1.2	Purpose	1-8
1.3	Requirements Terminology	1-9
1.3.1	Requirement Labeling Conventions	1-9
1.3.2	Numbering of Requirement and Related Objects	1-9
1.3.3	Requirement, Conditional Requirement, and Objective Identification	1-10
1.4	General	1-10
1.5	Document Organization	1-11
1.6	Revisions	1-12
1.7	Navigating the GR-1275 Portable Document Format (PDF) File	1-13

2 Building Requirements

2.1	Access to Buildings	2-1
2.2	Building Security	2-1
2.3	Building Conditions	2-2
2.4	Ceiling Fastening Methods	2-3
2.5	Electric Power, Heat, and Light	2-3
2.6	Administrative Space	2-3
2.7	Sanitary Facilities	2-3
2.8	Building Openings	2-4
2.9	Cleaning of Premises and Equipment	2-4
2.9.1	Scrap Material Bins and Containers	2-4
2.10	Protection of Premises and Equipment	2-5
2.11	Communications Requirements	2-7

3 Regulations

3.1	Introduction	3-1
3.2	Regulations	3-1
3.3	Hazardous Materials	3-2

4 Safety

4.1	Introduction	4-1
4.2	General	4-1
4.3	Ladders and Scaffolding	4-3

- 4.4 Microwave Radiation 4-3
- 4.5 Eye Protection (Safety Glasses and Goggles) 4-3
- 4.6 Hearing Protection 4-4
- 4.7 Insulating Gloves 4-4
- 4.8 Safety Headgear (Hard Hats) 4-4
- 4.9 Cable Vault 4-5
- 4.10 Fire Safety 4-5
- 4.11 Lightwave Systems 4-5
- 4.12 Asbestos 4-6
- 4.13 Installation Supplier Working Alone 4-6

5 Hazardous Materials/Waste

- 5.1 Introduction 5-1
- 5.2 Regulations 5-1
- 5.3 Hazardous/Regulated Materials 5-2
- 5.4 Warnings 5-2

6 Job Start, In-Process, Completion, and Acceptance

- 6.1 Introduction 6-1
- 6.2 Job Start Notification 6-1
- 6.3 Job Plan 6-2
- 6.4 Job Information Memorandum (JIM) 6-2
- 6.5 In-Process Report 6-3
- 6.6 Job Completion Report 6-3
- 6.7 Job Acceptance 6-4
- 6.8 Job Completion Assessment 6-6
 - 6.8.1 Critical, Major, and Minor Defects; and Observations 6-7
 - 6.8.1.1 Critical Defect 6-7
 - 6.8.1.2 Major Defect 6-7
 - 6.8.1.3 Minor Defect 6-8
 - 6.8.1.4 Observations 6-8
 - 6.8.1.5 Not Applicable (N/A) 6-8

7 Method of Procedure (MOP)

- 7.1 Introduction 7-1
- 7.2 Responsibility 7-1
- 7.3 Reporting of Service Interruptions and Degradations 7-2
- 7.4 Method of Procedure - General Requirements 7-3
 - 7.4.1 General MOP 7-3
 - 7.4.2 Detailed MOP - Service MOP 7-4
 - 7.4.3 Combined MOP 7-5
- 7.5 Preparation of a MOP - General Section 7-6
- 7.6 Preparation of a MOP - Detailed Section 7-8
 - 7.6.1 Equipment Alarms 7-12
- 7.7 Preparation of a MOP - Combined Section 7-12
- 7.8 MOP Approvals 7-17
- 7.9 MOP Changes 7-18

8 Commonly Used Tools

8.1 Introduction	8-1
8.2 Ring Cutters (Removal Tools)	8-2
8.3 Ladders and Scaffolds	8-2
8.4 Miscellaneous Tools (Removal Tools)	8-3

9 Workmanship Requirements - General Information

9.1 Introduction	9-1
9.2 General	9-1
9.2.1 COMMON LANGUAGE® Equipment Identifier (CLEIT™) Labels	9-2
9.3 Electrostatic Discharge (ESD)	9-2
9.4 Flammable Materials	9-3
9.5 Office Drawings and Records	9-3
9.6 Job Coordination and Documentation	9-4
9.7 General Technical References and Torque Requirements	9-4

10 Workmanship Requirements - Auxiliary Framing, Bracing, and Cable Rack

10.1 Introduction	10-1
10.2 General Assembly	10-1
10.3 Ceiling Inserts and Fastening Arrangements	10-3
10.4 Hanger Rods	10-4
10.5 Auxiliary Framing	10-5
10.5.1 Location and Spacing	10-6
10.5.2 Support — Stanchions	10-7
10.5.3 Splicing/Junction	10-8
10.5.4 Support of Equipment Frames	10-9
10.5.5 Community Dial Offices (CDOs) and Non-Traditional Equipment Locations	10-10
10.5.6 Floor-Supported Equipment	10-10
10.6 Auxiliary Framing Braces	10-10
10.6.1 General	10-10
10.6.2 Bracing of High- and Low-Level Auxiliary Framing	10-10
10.7 Bracing for Community Dial Office (CDO) and Non-Traditional Equipment Locations	10-12
10.8 Cable Rack	10-12
10.8.1 General	10-12
10.8.2 Planning	10-13
10.8.3 Cable Horns and Brackets	10-14
10.8.4 Loads	10-15
10.8.5 Assembly, Junction, and Termination	10-16
10.8.6 Spirals and Offsets in Vertical Cable Racks	10-19
10.8.7 Support	10-20
10.8.8 Bracing	10-22
10.8.9 Equipment Bracing	10-22

11 Workmanship Requirements - General Assembly, Cabinets, Frameworks, Units, and Misc.

11.1 Introduction	11-1
-----------------------------	------

- 11.2 Assembly 11-1
 - 11.2.1 General 11-1
 - 11.2.2 Threaded Parts 11-1
- 11.3 Equipment Framework/Cabinets 11-2
 - 11.3.1 General 11-2
 - 11.3.2 Alignment 11-3
 - 11.3.3 Floor Anchors 11-4
 - 11.3.4 Floor Fastening 11-6
 - 11.3.5 Junctioning 11-6
 - 11.3.6 Top Support 11-7
 - 11.3.7 Grounding 11-8
 - 11.3.8 Designations 11-8
- 11.4 Equipment Units and Apparatus 11-8
- 11.5 Raceway, Lighting, and AC Outlets/Receptacles 11-9
 - 11.5.1 General 11-9
 - 11.5.2 Safety Precautions and Equipment Protection 11-10
 - 11.5.3 Workmanship Requirements 11-10
- 11.6 Rolling Ladders and Track 11-12
- 11.7 Cable Slot Conversion 11-14

12 Workmanship Requirements - General Firestopping Considerations

- 12.1 Introduction 12-1
- 12.2 General 12-1
- 12.3 Cable Hole Labeling 12-4
- 12.4 Firestop Inspections 12-5
- 12.5 Firestopping With Intumescent Sheet Products 12-5
 - 12.5.1 General 12-5
 - 12.5.2 Fabricating Cover Panels 12-5
 - 12.5.3 Firestopping Rectangular Opening 12-6
 - 12.5.4 Firestopping Circular Openings 12-6
- 12.6 Firestopping With Intumescent Fireblock Product 12-7
 - 12.6.1 Installation of Fireblocks in Wall Penetrations - Initial Installation 12-7
 - 12.6.2 Installation of Fireblocks in Wall Penetrations - Installing or Removing Cable 12-7
 - 12.6.3 Other Type Penetrations 12-8
 - 12.6.4 Installation of Fireblocks in Floor Penetrations - Initial Installation 12-8
 - 12.6.4.1 General 12-8
 - 12.6.5 Installation of Fireblocks in Floor Penetrations - Installing or Removing Cable 12-9
- 12.7 Fire Protection of Fiber Optic Pathways 12-9
- 12.8 Materials List 12-10

13 Workmanship Requirements - Cabling and Wiring

- 13.1 Introduction 13-1
- 13.2 General 13-1
- 13.3 Cable Openings 13-3
- 13.4 Damaged Cables 13-3
- 13.5 Installation 13-4
- 13.6 Cable Protection 13-5
 - 13.6.1 General 13-5

13.7 Cable and Wire Protection	13-6
13.8 Application of Protection Material	13-6
13.9 Sheet/Formed Fiber	13-7
13.10 Tape	13-9
13.11 Securing With Twine	13-9
13.12 Sewing Cable Forms	13-10
13.13 Cable and Wire Forms	13-10
13.14 Nylon Cable Ties	13-11
13.14.1 General	13-11
13.15 Use of Nylon Ties	13-12
13.16 Routing and Placement	13-14
13.16.1 General	13-14
13.16.2 Cable Diversification	13-16
13.16.3 Central Office Ground Cable	13-16
13.16.4 Power Cable and Wire	13-17
13.16.5 Synchronization Clock Power and Timing Leads	13-17
13.17 Shielded and Coaxial Cable	13-19
13.18 Supporting	13-20
13.18.1 General	13-20
13.18.2 Power Cable	13-21
13.18.3 Central Office Ground Cable	13-21
13.18.4 Fiber Optic Cable/Jumpers	13-22
13.19 Unsecured Cable or Wire	13-22
13.20 Secured Cable	13-22
13.20.1 General	13-22
13.20.2 Power Cable	13-23
13.20.3 Coaxial and Shielded Cable	13-23
13.20.4 Horizontal Cable Runs	13-23
13.20.5 Vertical Cable Runs	13-24
13.20.6 Spirals	13-24
13.20.7 Cable Rack to Equipment Location	13-24
13.20.8 Distributing Frames	13-26
13.21 Cable Removal and Mining	13-26
13.22 Cable and Conductor Verification	13-26

14 Reserved

15 Workmanship Requirements - Connecting

15.1 Introduction	15-1
15.2 General	15-1
15.3 Skinning	15-1
15.4 Wire-Wrapped Connections	15-2
15.5 Soldered Connections	15-4
15.6 Miscellaneous Connections	15-4
15.7 Disconnecting/Reconnecting	15-5
15.8 Splicing	15-5
15.9 Coaxial Connections	15-5
15.10 Crimped Connections	15-6
15.10.1 General	15-6
15.11 Quick-Clip Connecting Slotted Beam Type	15-8

16 Workmanship Requirements - Equipment Designations

16.1 Introduction	16-1
16.2 General	16-1
16.3 Color Codes	16-2
16.4 Designation Sizes	16-2
16.5 Designation Location	16-2
16.5.1 General	16-2
16.5.2 Specific Designation	16-3
16.5.3 Cabinets and Cabinetized Racks	16-3
16.5.4 End Guards	16-4
16.5.5 Fuse Records/Books	16-4
16.5.6 Dedicated Cable Racks	16-4
16.5.7 Cable Penetrations	16-4
16.5.8 Battery Stand	16-4
16.5.9 Fiber Optic Pathways	16-5
16.6 Designation Content	16-5
16.7 Frequency of Designation	16-5
16.7.1 General	16-5
16.7.2 CLEI Codes	16-6
16.8 Adhesive Labels	16-6
16.9 Required Designations	16-6

17 Workmanship Requirements - Power

17.1 Introduction	17-1
17.2 General	17-1
17.3 Precautions	17-2
17.3.1 Power Equipment	17-2
17.4 Battery Plant	17-3
17.5 Prevention of Service Interruption or Degradation	17-5
17.6 Cable Hole/Opening Firestoppage	17-5
17.7 Equipment Protection	17-5
17.8 Waterproof and Sealed Floors	17-6
17.9 Assembly	17-6
17.9.1 General	17-6
17.9.2 Equipment Frameworks (Frames/Bays/Cabinets/Boards)	17-6
17.9.3 Battery Stands/Racks	17-7
17.9.4 Anchors	17-8
17.9.5 Battery Stands	17-8
17.9.6 Bus Bar	17-8
17.9.7 Bus Bar Drop Plates, Cell Post Plates, and Cell Post	17-9
17.10 Cabling	17-10
17.10.1 General	17-10
17.10.2 Batteries/Cells	17-12
17.11 Overcurrent Protection (Fuses/Circuit Breakers)	17-12
17.12 Connecting	17-14
17.12.1 General	17-14
17.12.2 Live Feeders	17-14
17.13 Flooded Batteries	17-14
17.13.1 General	17-14

17.13.2	Cell Unpacking, Cleaning, and Inspection	17-15
17.13.3	Hardware and Accessories	17-15
17.13.4	Preparation of Cell Posts, Straps, and Plates	17-16
17.13.5	Moving and Installing	17-17
17.13.6	Cell Charging	17-18
17.13.7	Electrolyte	17-19
17.13.8	Charging Records	17-19
17.13.9	String Transitions	17-20
18	Workmanship Requirements - Bonding and Grounding - Integrated Ground Plane	
18.1	Introduction	18-1
18.2	General	18-1
18.3	Equipment Grounding in a Raised Floor Environment	18-5
18.3.1	Verification of Floor and Pedestal Bonding and Grounding	18-5
18.3.2	Workmanship Requirements	18-5
18.4	AC Distribution System Grounding	18-7
18.5	Ground Bar Under Raised Floor	18-7
19	Workmanship Requirements - Isolated Ground Plane (IBN)	
19.1	Introduction	19-1
19.2	General	19-1
19.3	Isolated Ground Plane (IBN) Requirements	19-2
20	Workmanship Requirements - Equipment Removal and Cable Mining	
20.1	Introduction	20-1
20.2	General	20-1
20.3	Safety	20-2
20.4	Fiber Optic Jumpers and Cables	20-3
20.5	Job Coordination and Documentation	20-4
20.6	Hazardous Material/Waste	20-4
20.7	Scrap Material Segregation and Disposition	20-5
20.7.1	General	20-5
20.7.2	Disposition	20-6
20.8	Office Drawings and Records	20-7
20.9	Prevention of Service Interruption or Degradation	20-7
20.10	Equipment Protection	20-8
20.11	Tools	20-9
20.11.1	General	20-9
20.11.2	Cable Cutters, Portable Ladders, and Scaffolds	20-9
20.11.3	Scrap Material Bins and Containers	20-9
20.12	Equipment Alarms	20-9
20.13	Grounding	20-9
20.14	Equipment Removed for Reuse	20-10
20.14.1	General	20-10
20.14.2	Workmanship Requirements	20-11
20.15	DC Power Circuit and Fuse Removal	20-12
20.15.1	General	20-12
20.15.2	Safety Precautions and Equipment Protection	20-13

- 20.15.3 Workmanship Requirements 20-14
- 20.16 AC Circuit and Raceway Removal 20-14
 - 20.16.1 General 20-14
 - 20.16.2 Safety Precautions and Equipment Protection 20-15
 - 20.16.3 Workmanship Requirements 20-15
- 20.17 Cable Removal and Mining 20-16
 - 20.17.1 General 20-16
 - 20.17.2 Cable Cutting Procedures and Precautions 20-18
 - 20.17.3 Workmanship Requirements 20-18
- 20.18 Units and Equipment Frame Removal 20-19
 - 20.18.1 Workmanship Requirements 20-20
- 20.19 Mechanical and Crimp-Type Power Connections 20-20
- 20.20 Appliance Outlets, Lights, Switches, and Risers 20-21
- 20.21 Rolling Ladders 20-22
- 20.22 Overhead Ironwork and Bracing 20-22
 - 20.22.1 General 20-22
 - 20.22.2 Safety Precautions and Equipment Protection 20-23
 - 20.22.3 Workmanship Requirements 20-23
- 20.23 Battery Removal 20-23
 - 20.23.1 General 20-23
 - 20.23.2 Safety Precautions and Equipment Protection 20-24
 - 20.23.3 Workmanship Requirements 20-24

21 Workmanship Requirements - Equipment Retired in Place (RIP)

- 21.1 Introduction 21-1
- 21.2 General 21-1
- 21.3 Equipment Retired 21-1
- 21.4 Power Distribution Bay 21-2
- 21.5 Office Alarms 21-2
- 21.6 Circuit Packs 21-3

22 Workmanship Requirements - Fiber Optic

- 22.1 Introduction 22-1
- 22.2 General 22-1
- 22.3 Fiber Optic Pathways 22-3
- 22.4 Securing Fiber Optic 22-4
 - 22.4.1 Fiber Optic Jumpers 22-4
 - 22.4.2 Fiber Optic Cables 22-5
- 22.5 Segregation of Fiber Optic Cable, Breakout Cable, and Inter-Bay Cable 22-5
- 22.6 Fiber Protection System (FPS) 22-5
- 22.7 Physical Protection of Fiber Cable and Inter-Bay/Breakout Cable 22-6
- 22.8 Bonding/Grounding 22-7
- 22.9 Corrugated Plastic Innerduct 22-7
- 22.10 Cable Splicing 22-7
- 22.11 Fiber Optic Cable/Connector Testing 22-7
- 22.12 Connector Cleaning 22-8
- 22.13 Labeling 22-8

23 Installer Skill-Level Assessment

23.1 General	23-1
23.2 Competency Skill Levels	23-2
23.2.1 Critical Network Elements	23-2
23.3 Installer Skill Levels	23-5
23.3.1 Skill Level 1	23-5
23.3.2 Skill Level 2	23-5
23.3.3 Skill Level 3	23-6
23.3.4 Skill Level (4)	23-7
23.3.5 Skill Level (4A)	23-7

24 Workmanship Requirements - Raised Floor

24.1 Introduction	24-1
24.2 General	24-1
24.3 Safety	24-3
24.4 Cable Distribution System (CDS)	24-3
24.5 Cabling General	24-4
24.6 Cabling on Concrete Floor	24-5
24.7 Cable Rack Installed Under the Floor	24-5
24.8 Vertical Cable Rack	24-6
24.9 Cable Enclosures	24-6
24.10 Equipment Securing	24-6
24.11 Equipment Securing in Seismic Zones 3 and 4	24-7
24.12 Securing Equipment in Seismic Zones 0, 1, and 2	24-8
24.13 Securing Equipment to the Floor Tiles/Stringers	24-8
24.14 Securing Equipment Using Threaded Rod Into Anchors in the Concrete Floor	24-8
24.15 Floor and Equipment Grounding	24-8
24.16 Firestopping	24-9
24.17 Designations	24-9
24.18 Equipment Frame and Aisle AC Power/Lighting	24-9
24.19 Equipment Removals	24-10

25 Central Office Ladders

25.1 General	25-1
25.2 Ladder Assembly	25-2
25.3 Ladder Track	25-2
25.4 Track Assembly	25-3
25.5 Track Support	25-4
25.6 Height of Ladder	25-5

26 Standby Power

26.1 General	26-1
26.2 Engine	26-1
26.3 Alarms	26-3
26.4 Automatic Transfer Switch	26-3
26.5 Bonding and Grounding	26-4
26.6 Engine Room Environment	26-4
26.7 Testing	26-4
