## Network Maintenance: Access and Testing - DS3 HCDS TSC/RTU and DTAU Functional Requirements

### CONTENTS

|  |            |
|--|------------|
| Preface . . . . .  | Preface- 1 |
| <del>Document</del> Introduction . . . . .                       | 1-1        |
| 1.1 History . . . . .  | 1-1        |
| 1.2 Changes . . . . .  | 1-1        |
| 1.3 Overview . . . . .   | 1-1        |
| 1.4 organization of Document . . . . .                           | 1-2        |
| 1.5 Requirements Terminology . . . . .                           | 1-2        |
| 1.6 Graphical Conventions for <b>Figures in FR-476</b> . . . . . | 1-3        |
| 2. Overview of the Generic Test Architecture . . . . .           | 2-1        |
| 2.1 Architecture <b>Configurations</b> . . . . .                 | 2-2        |
| 2.2 Interface Technology . . . . .                               | 2-5        |
| 2.3 Terminology Used in FR-476 . . . . .                         | 2-5        |
| 3. DS3 HCDS Description . . . . .                                | 3-1        |
| 3.1 Transport Capabilities . . . . .                             | 3-1        |
| 3.2 DS3 Signal Format and Line Code . . . . .                    | 3-1        |
| 3.3 DS3 M-Frame <b>Format</b> Applications . . . . .             | 3-2        |
| 3.4 Circuit Components . . . . .                                 | 3-2        |
| 4. Remote Testing of DS3 HCDS . . . . .                          | 4-1        |
| 4.1 Categories of Basic Testing Functions . . . . .              | 4-1        |
| 4.2 Access Supervision . . . . .                                 | 4-1        |
| 4.2.1 Signal Presence . . . . .                                  | 4-2        |
| 4.3 In-Service Signal Characterization (Monitoring) . . . . .    | 4-2        |
| 4.3.1 Line Rate . . . . .  | 4-4        |
| 4.3.2 Digital Signal <b>Rate Identifier</b> . . . . .            | 4-4        |
| 4.3.3 Line Code . . . . .  | 4-4        |
| 4.3.4 Signal Application Format . . . . .                        | 4-5        |
| 4.3.5 Signal (Pulse) Density . . . . .                           | 4-5        |
| 4.3.6 Bipolar Coding Violations . . . . .                        | 4-5        |
| 4.3.7 Excessive Zeros . . . . .                                  | 4-5        |
| 4.3.8 Parity Bit Violations . . . . .                            | 4-5        |
| 4.3.9 Repeated or Conventional Test Patterns . . . . .           | 4-5        |
| 4.3.10 Out-of-Frame . . . . .                                    | 4-6        |

---

|  |              |
|--|--------------|
| 4.3.11 Timing and Clock Metrics . . . . .          | 4-6          |
| 4.3.12 Alarm Conditions . . . . .                  | 4-6          |
| 4.3.13 Framing Bit Errors . . . . .                | 4-6          |
| 4.3.14 Signal Power . . . . .                      | 4-6          |
| 4.3.15 <b>Timing</b> Jitter . . . . .              | 4-6          |
| 4.3.16 Arbitrary Frame Samples . . . . .           | 4-6          |
| 4.4 Test Signal Generation . . . . .               | 4-7          |
| 4.4.1 Bit <b>Error</b> Insertion . . . . .         | 4-7          |
| 4.5 Loopback Control . . . . .                     | 4-7          |
| 4.6 Monitoring and Measurement of Signal . . . . . | 4-7          |
| 4.6.1 Errored-Seconds Measurements . . . . .       | 4-8          |
| 4.6.2 Bit-Error Measurements . . . . .             | 4-8          |
| 4.6.3 SES Measurements . . . . .                   | 4-8          |
| 4.6.4 BPV Measurements . . . . .                   | 4-8          |
| 4.6.5 <b>Parity</b> Errors . . . . .               | 4-8          |
| 4.6.6 Frame Bit <b>Errors</b> . . . . .            | 4-9          |
| 4.6.7 Elapsed Time . . . . .                       | 4-9          |
| 5. DS3 DTAU Functions . . . . .                    | 5-1          |
| 5.1 Interface . . . . .                            | 5-1          |
| 5.2 Circuit Access . . . . .                       | 5-1          |
| 5.3 Terminate and Leave . . . . .                  | 5-2          |
| References . . . . .                               | References-1 |
| Glossary . . . . .                                 | Glossary-1   |

---

## LIST OF FIGURES

|  |     |
|--|-----|
| Figure 1-1. Conventions for FR-476 . . . . .                               | 1-3 |
| Figure 2-1. A Generic Test Architecture . . . . .                          | 2-3 |
| Figure 2-2. Example of a Generic Test Architecture Using the DCN . . . . . | 2-4 |
| Figure 5-1. DS3 DTAU Modes . . . . .                                       | 5-3 |
