

Surveillance Administration System Generic Requirements

Contents

Preface	Preface-1
1. Introduction	1-1
1.1 Scope and Purpose	1-1
1.2 Network Architecture	1-1
1.3 SAS Architecture	1-3
1.4 SAS Functionality	1-5
1.5 Reason for Reissue	1-7
1.6 Target Audience	1-7
1.7 Review/Concurrence Information	1-7
1.8 Requirements Terminology	1-8
1.9 Requirement Labeling Conventions.....	1-8
1.9.1 Numbering of Requirement and Related Objects	1-8
1.9.2 Requirement, Conditional Requirement, and Objective Object Identification	1-9
2. SAS Configuration Management	2-1
2.1 Service Planning and Negotiation	2-1
2.1.1 Lawful Access Services	2-1
2.1.1.1 Intercept Requests.....	2-2
2.1.1.2 Subscriber Information Requests.....	2-5
2.1.2 Intercept Service Parameter Negotiation	2-6
2.1.2.1 CDC Provisioning.....	2-6
2.1.2.2 CCC Provisioning	2-8
2.1.3 Operations Systems Access	2-13
2.1.4 Automation of Subscriber Information Retrieval	2-15
2.1.5 SAS Application and Platform Administration	2-17
2.2 SA User Command Interaction with SAS.....	2-17
2.2.1 Intercept Data Entry	2-20
2.2.1.1 Object ID Generation.....	2-20
2.2.1.2 Traditional Intercept Data Entry	2-21
2.2.1.3 Network-Based Intercept Data Entry.....	2-23
2.2.2 Network-Based Profile and Intercept Creation	2-26
2.2.3 Network-Based Intercept Activation	2-27
2.2.4 Network-Based Intercept Modification	2-28
2.2.5 Network-Based Profile and Intercept Deletion	2-29
2.2.6 SAS User Interface.....	2-31
2.3 Operations Interface	2-33
2.3.1 Interface Information Model.....	2-33
2.3.2 SAI Transactions	2-36
2.3.2.1 CREATE Transactions	2-38
2.3.2.2 UPDATE Transactions	2-44

2.3.2.3	DELETE Transactions.....	2-49
2.3.2.4	RETRIEVE Transactions.....	2-52
3.	Record Management	3-1
3.1	Information Model	3-1
3.1.1	Information Model Diagram	3-2
3.1.2	Information Model Dictionary	3-4
3.1.3	Information Model Attribute Dictionary.....	3-10
3.1.3.1	Data Type Definitions.....	3-11
3.1.3.2	Attribute Definitions.....	3-11
3.2	Information Queries	3-34
3.2.1	Intercept Query	3-35
3.2.2	Delivery Channel Query	3-35
3.2.3	Intercepts by IAP Network Element Query	3-35
3.2.4	Intercepts Due to Expire Query	3-36
3.2.5	Intercept Statistics Query	3-36
3.2.6	Administrative Log Query	3-36
3.2.7	Intercept Information Request Query	3-37
3.2.8	Ad-Hoc Query.....	3-37
3.3	Information Backup and Archive.....	3-37
3.4	SAS and IAP Network Element Database Synchronization	3-38
4.	Security Management	4-1
4.1	The TMN Structure for Security Management	4-1
4.2	Prevention of Security Compromise	4-2
4.3	Detection of Security Compromise	4-3
4.4	Security Administration	4-4
4.5	Security Feature Requirements	4-4
4.5.1	Identification	4-4
4.5.2	Authentication.....	4-5
4.5.3	System Access Control	4-7
4.5.4	Resource Access Control	4-11
4.5.5	Alarm Management.....	4-12
4.5.6	Security Log (Audit).....	4-12
4.5.7	Security Administration	4-14
5.	Performance Management	5-1
5.1	Performance Quality Assurance.....	5-1
5.1.1	Scalable System Growth	5-1
5.1.2	Modular System Development.....	5-1
5.1.3	Number of Simultaneous Users	5-2
5.1.4	Number of Switches.....	5-2
5.1.5	Database Size	5-2
5.1.6	Simultaneous Remote Access Sessions	5-2
5.2	Performance Monitoring	5-2
5.2.1	Performance Monitoring on a Per IAP Switch Basis.....	5-3
5.2.2	Performance Monitoring on a Per LaesCase Basis.....	5-5
5.3	Performance Management Control	5-8

5.3.1	Creation of Thresholds.....	5-9
5.3.2	Updating of Thresholds.....	5-10
6.	Fault Management.....	6-1
6.1	Testing.....	6-1
6.1.1	SAS Self Diagnostics	6-1
6.1.2	Connectivity Tests.....	6-2
6.1.2.1	Interface to Network Element and OSS(s) Tests.....	6-2
6.1.2.2	CDC and Packet CCC Testing.....	6-2
6.1.2.3	Circuit-Mode CCC Testing.....	6-4
6.2	Alarm Management.....	6-4
6.2.1	Network Element Alarms.....	6-5
6.2.2	SAS Alarms.....	6-10
6.3	Fault Localization and Correction.....	6-10
6.3.1	Fault Localization and Correction in Network Elements.....	6-10
6.3.2	Fault Localization and Correction in SAS	6-13
6.4	Trouble Administration.....	6-13
Appendix A:	A Word About Billing Data.....	A-1
A.1	Usage Management.....	A-1
A.2	Tariffing/Pricing.....	A-1
A.3	Offline Processing.....	A-1
Appendix B:	SAS Operation Procedures - A User Perspective	B-1
B.1	Court Order Processing.....	B-2
B.2	Intercept Subject Profiling	B-2
B.3	Facilities Assignment.....	B-3
B.4	Network Element Provisioning.....	B-4
B.4.1	Surveillance Profile Creation	B-5
B.4.2	Surveillance Setup.....	B-5
B.4.3	Surveillance Activation/Deactivation	B-6
B.4.4	Surveillance Modification.....	B-6
B.4.5	Transfer of Surveillance Information from IAP Network Element to SAS	B-6
B.5	SAS Notifications, Maintenance and Information Management	B-7
B.5.1	Lawful Access Expiration Notification.....	B-7
B.5.2	Reaction to Notifications from the IAP Network Element.....	B-7
B.5.3	Determine Surveillance Status - Perform CDC Checks.....	B-8
B.5.4	SAS Diagnostics	B-8
B.5.5	Backup of SAS Information.....	B-8
B.5.6	Reconciliation of Data Stored in an IAP Network Element and in SAS	B-8
B.6	General Administration.....	B-9
B.6.1	Administration Log.....	B-9
B.6.2	Database Reports.....	B-9
Appendix C:	Sample Message Flow: laesCase Provisioning with Preassigned Resources	C-1

Acronyms..... Acronyms-1
