
Functional Roles of TMN Management Layers for Network Element Software Management

Contents

1. Introduction.....	1-1
1.1 Purpose of Document.....	1-1
1.2 Organization of Document.....	1-1
1.3 Terminology.....	1-2
1.3.1 Document Specific Terminology.....	1-2
1.3.1.1 Network Element.....	1-2
1.3.1.2 Management Systems.....	1-3
1.3.1.3 Software Related.....	1-4
1.4 Related Documents.....	1-5
2. TMN Overview.....	2-1
2.1 Management Functional Areas.....	2-1
2.2 Layered TMN Architecture.....	2-2
2.3 Management Systems Classification Based on TMN.....	2-4
3. Software Management Architecture and Lifecycles.....	3-1
3.1 Integrated Software Management Architecture.....	3-2
3.2 Span of Control.....	3-3
3.3 Software Process Lifecycles.....	3-5
4. Software Management Phases Across TMN Layers.....	4-1
4.1 Software Management Matrix.....	4-2
4.2 NML Functions for Software Management.....	4-3
4.2.1 Process Management.....	4-3
4.2.2 Software Acquisition.....	4-4
4.2.3 Software Distribution.....	4-8
4.2.4 Software Scheduling.....	4-12

4.2.5 Graphical User Interface	4-13
4.2.6 Management Reporting.....	4-13
4.3 EML Functions for Software Management	4-14
4.3.1 Software Distribution	4-14
4.3.2 Software Delivery.....	4-15
4.3.3 Autonomous Notification.....	4-16
4.3.4 Protocol Conversion	4-16
4.4 NEL Functions for Software Management.....	4-17
4.4.1 Software Installation.....	4-17
4.4.2 Software Activation	4-18
5. Protocols	5-1
5.1 Protocol Candidates.....	5-1
5.2 File Transfer Protocol Strategies	5-2
5.3 File Transfer Protocol Implementation	5-5
5.3.1 Network Layer Addressing.....	5-5
5.3.2 File Transfer Protocol Translation	5-5
6. Summary	6-1
