
Flux Certification

Contents

1. Introduction.....	1-1
2. Certification Assessment.....	2-1
2.1 Applicability.....	2-1
2.2 Procedures.....	2-1
2.2.1 Selection of Sample	2-1
2.2.2 Criteria Set	2-1
2.2.3 Use of Manufacturer's Data.....	2-1
2.2.4 Observation of Tests	2-1
2.2.5 Retesting.....	2-2
2.2.6 Results Documented in a Test Conformance Report	2-2
2.2.7 Recertification.....	2-2
2.3 Criteria Set	2-2
3. Certification Mark Support.....	3-1
3.1 Notification and Assessment of Product/Process Change	3-1
3.2 Spot Checking	3-1
4. Test Procedures	4-1
4.1 Flammability Test	4-1
4.2 Corrosiveness Tests.....	4-1
4.2.1 Flux Preparation for Testing	4-1
4.2.2 Copper Mirror Test	4-1
4.2.3 Halides Test.....	4-1
4.2.4 Pattern Preparation for Surface Insulation Resistance and Electromigration Tests	4-2
4.2.4.1 Liquid Fluxes	4-2
4.2.4.2 Solder Paste Fluxes.....	4-2
4.2.4.3 Cored Wire Solder Fluxes	4-2
4.2.5 Surface Insulation Resistance (SIR) Test.....	4-2
4.2.6 Electromigration Resistance (EMR) Test	4-2
