Telcordia SR-4866-Documentation Information

| | |
|-------------------------------------------------------------------------------------------------|------|
| Executive Summary | ES-1 |
| 1. Introduction..... | 1-1 |
| 2. Metallic Telecommunications Wire and Cable Certification Assessment..... | 2-1 |
| 2.1 Certification Assessment Process | 2-1 |
| 2.1.1 Selection of Samples | 2-1 |
| 2.1.2 Criteria Sets..... | 2-1 |
| 2.1.3 Use of Manufacturers' Test Data | 2-1 |
| 2.1.4 Observations of Tests..... | 2-1 |
| 2.1.5 Retesting | 2-2 |
| 2.1.6 Results Documented in TCR | 2-2 |
| 2.1.7 Recertification..... | 2-2 |
| 2.1.8 Supplier Support | 2-2 |
| 3. Metallic Telecommunications Wire and Cable Certification Criteria..... | 3-1 |
| 3.1 Outdoor Metallic Twisted Pair Cables | 3-1 |
| 3.1.1 Solid PIC Air Core Cable (per GR-421-CORE) ^[1] | 3-1 |
| 3.1.1.1 Mechanical Design Requirements | 3-2 |
| 3.1.1.2 Core Layups..... | 3-2 |
| 3.1.1.3 Electrical Requirements..... | 3-2 |
| 3.1.1.4 Mechanical Tests | 3-2 |
| 3.1.1.5 General Requirements | 3-2 |
| 3.1.2 PIC Foam-Skin Air Core Cable with Bonded STALPETH Sheath (per GR-421-CORE) | 3-2 |
| 3.1.2.1 Mechanical Design Requirements | 3-2 |
| 3.1.2.2 Core Layups..... | 3-2 |
| 3.1.2.3 Electrical Requirements..... | 3-2 |
| 3.1.2.4 Mechanical Tests | 3-3 |
| 3.1.2.5 General Requirements | 3-3 |
| 3.1.3 PIC Filled Solid/Foam-Skin Cable with ASP or Bonded ASP Sheath (per GR-421-CORE) | 3-3 |
| 3.1.3.1 Mechanical Design Requirements | 3-3 |
| 3.1.3.2 Core Layups..... | 3-3 |
| 3.1.3.3 Electrical Requirements..... | 3-3 |
| 3.1.3.4 Mechanical Tests | 3-3 |
| 3.1.3.5 General Requirements | 3-3 |
| 3.1.4 PIC Filled Foam-Skin Cable with ALPETH Sheath (per GR-421- CORE) | 3-4 |
| 3.1.5 PIC Filled Solid/Foam-Skin Screened Cable with ASP Sheath (per GR-421-CORE) | 3-4 |
| 3.1.5.1 Mechanical Design Requirements | 3-4 |
| 3.1.5.2 Core Layups..... | 3-4 |

| | | |
|---------|------------------------------------------------------------------------------------------------------------|------------|
| 3.1.5.3 | Electrical Requirements..... | 3-4 |
| 3.1.5.4 | Mechanical Tests | 3-4 |
| 3.1.5.5 | General Requirements | 3-4 |
| 3.1.6 | PIC Bonded Screened Cable with PASP or PAP Sheath (per GR-421-CORE) | 3-4 |
| 3.1.6.1 | Mechanical Design Requirements | 3-4 |
| 3.1.6.2 | Core Layups..... | 3-5 |
| 3.1.6.3 | Electrical Requirements..... | 3-5 |
| 3.1.6.4 | Mechanical Tests | 3-5 |
| 3.1.6.5 | General Requirements | 3-5 |
| 3.1.7 | PIC Self-Support Cable with ALPETH Sheath and Reinforced Sheath (per GR-421-CORE) | 3-5 |
| 3.1.7.1 | Mechanical Design Requirements | 3-5 |
| 3.1.7.2 | Core Layups..... | 3-5 |
| 3.1.7.3 | Electrical Requirements..... | 3-5 |
| 3.1.7.4 | Mechanical Tests | 3-5 |
| 3.1.7.5 | General Requirements | 3-6 |
| 3.1.8 | Thermoplastic Insulated steam Resistant Bonded STALPETH Cable (per GR-110-CORE)^[2] | 3-6 |
| 3.1.8.1 | Mechanical Design Requirements | 3-6 |
| 3.1.8.2 | Core Layups..... | 3-6 |
| 3.1.8.3 | Electrical Requirements..... | 3-6 |
| 3.1.8.4 | Mechanical Tests | 3-6 |
| 3.1.8.5 | General Requirements | 3-6 |
| 3.1.9 | Thermoplastic Insulated Riser Cable (per GR-111-CORE)^[3] | 3-6 |
| 3.1.9.1 | Mechanical Design Requirements | 3-6 |
| 3.1.9.2 | Core Layups..... | 3-7 |
| 3.1.9.3 | Electrical Requirements..... | 3-7 |
| 3.1.9.4 | Mechanical Tests | 3-7 |
| 3.1.9.5 | General Requirements | 3-7 |
| 3.2 | Outdoor Coaxial Drop and Distribution Cables..... | 3-7 |
| 3.2.1 | Outdoor Coaxial Drop Cable (per GR-1398-CORE) ^[4] | 3-7 |
| 3.2.2 | Outdoor Coaxial Distribution Cable (per GR-1399-CORE) ^[5] | 3-7 |
| 3.2.3 | Hybrid Coaxial / Twisted Pair Aerial Drop Cable (per GR-2879-CORE) ^[6] | 3-8 |
| 3.2.4 | Hybrid Buried Coaxial / Twisted Pair Cable (per Gr-2949-CORE) ^[7] | 3-8 |
| 3.3 | Outdoor Metallic Twisted Pair Wires | 3-8 |
| 3.3.1 | One Pair Aerial Service Wire (per TR-NWT-000121) ^[8] | 3-8 |
| 3.3.2 | Multiple Pair Aerial Service Wire (per TR-NWT-000122) ^[9] | 3-8 |
| 3.3.3 | Non-Metallic Reinforced Aerial Service Wire (per GR-1069-CORE) ^[10] | 3-8 |
| 3.3.4 | Single Pair Buried Distribution Wire (per TR-NWT-000123) ^[11] | 3-8 |
| 3.3.5 | Multiple Pair Buried Wire (per TR-NWT-000124) ^[12] | 3-9 |

| | | |
|-------|-------------------------------------------------------------------------------------------------------------------|--------------|
| 3.3.6 | Network Outdoor, Customer Premises and Universal Cross Connecting Wire (per GR-126-CORE) ^[13] | 3-9 |
| 3.4 | Premises Twisted Pair Wires..... | 3-9 |
| 3.4.1 | Network Plenum Cable / Wire (per TR-NWT-000131) ^[14] | 3-9 |
| 3.4.2 | Network Shielded Station Wire (per TR-NWT-000132) ^[15] | 3-9 |
| 3.4.3 | Network Inside Wiring Cable (per TR-NWT-000133) ^[16] | 3-9 |
| 3.4.4 | Network Two-Pair Station Wire (per TR-NWT-000134) ^[17] | 3-9 |
| 3.5 | Central Office Wires and Cables..... | 3-10 |
| 3.5.1 | Distributing Frame Wire (per GR-136-CORE) ^[18] | 3-10 |
| 3.5.2 | Central Office Cable (per GR-137-CORE) ^[19] | 3-10 |
| 3.5.3 | Central Office Coaxial Cable (per GR-139-CORE) ^[20] | 3-10 |
| 3.5.4 | Central Office Power Wire (per GR-347-CORE) ^[21] | 3-10 |
| 3.6 | Premises Coaxial Cables..... | 3-10 |
| 3.6.1 | Plenum Coaxial Cable (GR-2880-CORE) ^[22] | 3-10 |
| 3.6.2 | Indoor Coaxial Cable (per GR-2881-CORE) ^[23] | 3-11 |
| 4. | Product Certification Per Bellcore Technical Advisory | 4-1 |
| 5. | Conclusion..... | 5-1 |
