

CONTENTS

1. INTRODUCTION . . . . .	1-1
1.1 Purpose and Scope . . . . .	1-1
1.2 Organization . . . . .	1-1
1.3 Reasons for Reissue from TA . . . . .	1-1
2. GENERAL INFORMATION . . . . .	2-1
2.1 Product Description . . . . .	2-1
2.2 Product Definitions . . . . .	2-1
2.2.1 Splice Closure . . . . .	2-1
2.2.2 Outer Housing . . . . .	2-1
2.3 Product Applications . . . . .	2-1
2.4 Product Analysis . . . . .	2-1
2.4.1 Analysis Criteria . . . . .	2-1
2.4.2 Reporting of Design Analysis and Test Data . . . . .	2-2
3. GENERAL REQUIREMENTS . . . . .	3-1
3.1 Documentation . . . . .	3-1
3.1.1 Practices . . . . .	3-1
3.1.2 Workcenter Information Package . . . . .	3-1
3.2 Marking, Packaging and Shipping . . . . .	3-1
3.3 Quality and Reliability . . . . .	3-1
3.3.1 Manufacturing Program Analysis . . . . .	3-2
3.3.2 Product Samples . . . . .	3-2
3.3.3 Manufacturing Process Surveillance Program . . . . .	3-2
4. FUNCTIONAL DESIGN AND PERFORMANCE CRITERIA . . . . .	4-1
4.1 Materials . . . . .	4-1
4.1.1 Metallic . . . . .	4-1
4.1.2 Non-Metallic . . . . .	4-1
4.1.3 Shelf Life . . . . .	4-1
4.2 Design Features . . . . .	4-1
4.2.1 Cable Compatibility . . . . .	4-1
4.2.2 Protection From Galvanic Corrosion . . . . .	4-1
4.2.3 Splice Isolation . . . . .	4-1
4.2.4 Cable Strain Relief . . . . .	4-1
4.2.5 Splice and Fiber Protection . . . . .	4-1
4.2.6 Splice Closure Assembly . . . . .	4-1
4.2.7 Splice Closure Components . . . . .	4-2
4.3 Mechanical and Physical Requirements . . . . .	4-2
4.3.1 Cable Clamping and Sealing . . . . .	4-2
4.3.2 Cable Pullout . . . . .	4-2
4.3.3 Closure Strain Relief . . . . .	4-2
4.3.4 Bonding Clamp Retention . . . . .	4-2
4.4 Electrical Requirements . . . . .	4-3
4.4.1 Bonding and Grounding . . . . .	4-3

4.5	Environmental Requirements . . . . .	4-3
4.5.1	Thermal Aging Test . . . . .	4-3
4.5.2	Thermal Shock Test . . . . .	4-3
4.5.3	Water Immersion Test . . . . .	4-3
4.5.4	Saltwater Corrosion Test . . . . .	4-3
4.5.5	Fungus Resistance . . . . .	4-4
4.6	Assembly and Reentry Requirements . . . . .	4-4
4.6.1	Environmental Assembly . . . . .	4-4
4.6.2	Reentry Test . . . . .	4-4
5.	PERFORMANCE VERIFICATION/TEST PROCEDURES . . . . .	5-1
5.1	General Information . . . . .	5-1
5.2	Test Assemblies . . . . .	5-1
5.2.1	Test Sample Groups . . . . .	5-1
5.2.2	Test Conditions . . . . .	5-2
5.2.3	Test Schedule . . . . .	5-2
5.3	Mechanical Tests . . . . .	5-4
5.3.1	Cable Clamping and Sealing . . . . .	5-4
5.3.2	Cable Pull-out Test . . . . .	5-5
5.3.3	Closure Strain Relief Test . . . . .	5-5
5.3.4	Bond Clamp Retention . . . . .	5-5
5.4	Electrical Tests . . . . .	5-5
5.4.1	AC Power Fault Test . . . . .	5-5
5.5	Environmental Tests . . . . .	5-5
5.5.1	Thermal Aging Test . . . . .	5-5
5.5.2	Thermal Shock Test . . . . .	5-6
5.5.3	Water Immersion Test . . . . .	5-6
5.5.4	Saltwater Corrosion Test . . . . .	5-6
5.5.5	Fungus Resistance . . . . .	5-7
5.6	Assembly and Reentry Tests . . . . .	5-7
5.6.1	Environmental Assembly Test . . . . .	5-7
5.6.2	Reentry Test . . . . .	5-7
6.	REFERENCES . . . . .	6-1
6.1	Bellcore . . . . .	6-1
6.2	External Sources . . . . .	6-1
