GENERIC REQUIREMENTS NOTICE OF DISCLAIMER . . . . .	iii
List of Figures . . . . .	vii
Preface . . . . .	ix
1. Introduction . . . . .	1-1
1.1 Summary . . . . .	1-1
1.2 Scope . . . . .	1-1
1.3 Perspective . . . . .	1-2
1.4 Overview . . . . .	1-2
1.5 Goal/Target . . . . .	1-2
1.6 Requirements Terminology . . . . .	1-3
2. Functional Architecture . . . . .	2-1
2.1 General Model . . . . .	2-1
2.2 Time Acquisition Component . . . . .	2-1
2.3 Time Transfer Component . . . . .	2-1
2.4 Time Recipient Component . . . . .	2-2
3. Clock Accuracy . . . . .	3-1
3.1 Time Scales . . . . .	3-1
3.2 Degradation Factors . . . . .	3-1
3.2.1 Correct Time-Of-Day . . . . .	3-1
3.2.2 Time Transfer Delay . . . . .	3-1
3.2.3 Clock Maintenance . . . . .	3-2
3.3 Time Sources . . . . .	3-2
3.4 Time Zones . . . . .	3-2
3.5 Daylight Saving . . . . .	3-2
3.6 Leap Seconds . . . . .	3-2
3.7 Adjustments and Corrections . . . . .	3-3
3.7.1 Discrete Corrections . . . . .	3-3
3.7.2 Gradual Corrections . . . . .	3-3
4. Time-Of-Day Precision . . . . .	4-1
4.1 Goal . . . . .	4-1
4.2 Rationale . . . . .	4-1
5. Time Transfer Interfaces . . . . .	5-1
5.1 General . . . . .	5-1
5.2 IRIG Family Time Codes . . . . .	5-1
5.3 RS-232 Serial Interfaces . . . . .	5-1
5.4 Proprietary Bus Level . . . . .	5-1
6. Time-Of-Day Requirements . . . . .	6-1
6.1 Time Acquisition Component (TAC) Requirements . . . . .	6-1
6.2 Time Transfer Component (TTC) Requirements . . . . .	6-2
6.3 Time Recipient Component (TRC) Requirements . . . . .	6-2
6.4 Common TAC, TTC, and TRC Requirement . . . . .	6-4
6.5 Other TAC, TTC, and TRC Requirement . . . . .	6-4

6.6 TAC—TTC Interface Description . . . . .	6-4
6.7 TTC—TRC Interface Description . . . . .	6-4
6.8 TL1 OS—NE Interface Messages . . . . .	6-5
6.8.1 RTRV—Time-Of-Day . . . . .	6-5
6.8.2 RTRV—Time-Of-Day Command/Response Syntax . . . . .	6-5
6.8.2.1 RTRV—Time-Of-Day Input Message Command . . . . .	6-5
6.8.2.2 RTRV—Time-Of-Day Output Message Response . . . . .	6-5
6.8.3 Other TL1 Command Verbs SET, ED, ACT, INH, ALW . . . . .	6-6
7. Safety, Reliability, and Other Criteria . . . . .	7-1
7.1 Reliability Considerations . . . . .	7-1
7.2 Physical and Electrical Protection of OSs . . . . .	7-1
7.3 Other Generic Criteria . . . . .	7-2
7.3.1 Physical and Environmental Criteria . . . . .	7-2
7.3.1.1 Central Office and CEV Equipment . . . . .	7-2
7.3.1.2 Outside Plant Environment . . . . .	7-2
7.3.2 Equipment Design . . . . .	7-3
7.3.3 Documentation and Training . . . . .	7-3
7.3.4 Safety . . . . .	7-3
7.3.5 Other Requirements and Objectives . . . . .	7-4
8. Standing Issues . . . . .	8-1
8.1 Lack of Formal Time Transfer Standards . . . . .	8-1
8.1.1 Time Transfer Character-Based Time Messages . . . . .	8-1
8.1.2 Open System Interconnection (OSI) . . . . .	8-1
Appendix A: References . . . . .	A-1
Appendix B: Glossary . . . . .	B-1

## List of Figures

Figure 2-1	Model Architecture . . . . .	2-1
