

# Generic Requirements for Supplier-Provided Documentation

## Contents

Preface .....	Preface-1
1. Introduction.....	1-1
1.1 Purpose .....	1-1
1.2 Scope .....	1-1
1.3 Relationship to Other Telcordia Documents.....	1-1
1.4 Organization of the Document .....	1-2
1.5 Requirements Terminology .....	1-3
1.6 Requirement Labeling Conventions .....	1-3
1.6.1 Numbering of Requirement and Related Objects .....	1-3
1.6.2 Requirement, Conditional Requirement, and Objective Object Identification .....	1-4
2. Beginning Considerations.....	2-1
2.1 Human Factors Considerations in Documentation .....	2-1
2.2 Comprehensiveness.....	2-1
2.3 Comprehensibility.....	2-2
2.4 Consistency in Format, Terminology, and Numbering .....	2-2
2.5 General Requirements.....	2-4
3. Determine Functional Category, Subject Area, and Subset.....	3-1
3.1 Overview of Functional Categories .....	3-1
3.2 Switching .....	3-1
3.3 Transport .....	3-1
3.4 Operations .....	3-2
3.5 Common/Miscellaneous.....	3-2
3.6 General Requirements.....	3-2
3.6.1 Subject Areas and Subsets.....	3-3
4. Requirements for Developing Documents, by Subject Area.....	4-1
4.1 General Documentation Subject Area.....	4-6
4.1.1 Documentation Guide .....	4-7
4.1.2 System Descriptions.....	4-8
4.1.3 User Guide .....	4-8
4.1.4 Operating Instructions .....	4-9
4.1.5 Product Descriptions .....	4-9
4.1.6 Feature Description (FD) Documents .....	4-10
4.1.7 Hardware Descriptions .....	4-18
4.1.8 Software Descriptions.....	4-19
4.1.9 Trouble Escalation Procedures .....	4-20

4.1.10	Product Support Descriptions .....	4-20
4.1.11	Theory of Operation .....	4-20
4.2	Power Documentation Subject Area .....	4-21
4.2.1	Power Requirements .....	4-21
4.2.2	Power System Configuration Descriptions .....	4-22
4.2.3	Installation Procedures .....	4-22
4.2.4	Routine (Scheduled) Task Procedures .....	4-25
4.2.5	Trouble-Locating Procedures .....	4-25
4.3	System Capacity Subject Area .....	4-25
4.3.1	Traffic Capacity .....	4-26
4.3.2	Most Limiting Component .....	4-26
4.3.3	Call Volume .....	4-27
4.3.4	Maximum Busy-Hour Calls .....	4-27
4.3.5	Classes of Service .....	4-28
4.3.6	Usage-Capacity (CCS) Charts .....	4-28
4.3.7	Line Capacity .....	4-29
4.3.8	Impact on Traffic Capacities .....	4-29
4.4	Network Element Interface Subject Area .....	4-30
4.4.1	Analog/Digital Interface Description .....	4-30
4.4.2	Database Access Procedures .....	4-31
4.4.3	Database Maintenance Access Procedures .....	4-31
4.4.4	Support System Interface Protocol Details .....	4-31
4.4.5	Central Office Cross-Connection Description .....	4-32
4.5	Office Records Subject Area .....	4-32
4.5.1	Office Assignment Documentation .....	4-33
4.5.2	Office Options/Features Documentation .....	4-33
4.5.3	Trouble Logs .....	4-34
4.5.4	Hardware Configuration Records .....	4-35
4.5.5	Software Configuration Records .....	4-35
4.5.6	Office Parameter Records .....	4-36
4.5.7	Translation Records .....	4-36
4.5.8	Floor Plans .....	4-37
4.6	Software and Translations Subject Area .....	4-38
4.6.1	Program Specifications .....	4-39
4.6.2	Program Maps and Database Layouts .....	4-39
4.6.3	Software Trouble Analysis Documentation .....	4-40
4.6.4	Software Maintenance Procedures .....	4-40
4.6.5	Translations Guides .....	4-41
4.6.5.1	General Requirements for a Translations Guide .....	4-44
4.6.5.2	Line Translations .....	4-57
4.6.5.3	Trunk Translations .....	4-59
4.6.5.4	Routing Translations .....	4-63
4.6.5.5	Billing Translations .....	4-66
4.6.5.6	Other Products and Services Translations .....	4-68
4.6.5.7	Translations Overview .....	4-69
4.6.5.8	Parameters Translations .....	4-72
4.6.5.9	Traffic and Plant Measurements Translations .....	4-74

4.6.5.10	Cutover/Bulk Translations .....	4-77
4.6.6	Traffic Table Installation and Verification Procedures .....	4-79
4.6.7	Patch Administration and Application Procedures.....	4-79
4.6.8	Software Release Add/Change Procedures .....	4-80
4.6.9	Software/Firmware Source Code Information .....	4-81
4.6.10	Office Parameter Add/Change Procedures .....	4-82
4.6.11	Office Update/Backup Procedures.....	4-83
4.7	Planning and Engineering Subject Area.....	4-84
4.7.1	Product Technical Specifications.....	4-84
4.7.2	Product Planning Guides .....	4-85
4.7.3	Building Engineering Documentation.....	4-86
4.7.4	Equipment Engineering Documentation .....	4-87
4.7.5	Traffic Engineering Documentation.....	4-88
4.7.6	Hardware Engineering Documentation .....	4-89
4.7.7	Software Engineering Documentation.....	4-91
4.8	Inventory and Ordering.....	4-91
4.8.1	Inventory Details.....	4-92
4.8.2	Coding Information .....	4-92
4.8.3	Ordering Guide.....	4-93
4.8.4	Price and Cost Information .....	4-93
4.8.5	Scheduling Information .....	4-94
4.9	Installation Subject Area.....	4-94
4.9.1	New Installation Procedures.....	4-95
4.9.2	Cutover Procedures.....	4-96
4.9.3	Retrofit Procedures .....	4-96
4.9.4	Growth Procedures .....	4-98
4.9.5	Hardware/Software Acceptance Test Procedures .....	4-98
4.10	Provisioning Subject Area .....	4-99
4.10.1	Manual Applications Provisioning Guide .....	4-99
4.10.2	Database Provisioning Guide .....	4-100
4.10.3	General Provisioning Procedures.....	4-101
4.10.4	Hardware Provisioning Procedures .....	4-102
4.10.5	Software Provisioning Procedures.....	4-103
4.10.6	Assignment Provisioning Procedures .....	4-103
4.11	Maintenance Subject Area .....	4-104
4.11.1	Input Message Manuals.....	4-105
4.11.2	Output Message Manuals.....	4-105
4.11.3	Trouble-Locating/Corrective Action Procedures.....	4-106
4.11.4	Maintenance Measurements Documentation.....	4-108
4.11.5	Routine (Scheduled) Task Procedures .....	4-109
4.11.6	Alarm and Performance Monitoring Procedures.....	4-109
4.11.7	Emergency Action and System Recovery Procedures.....	4-110
4.11.8	Maintenance Spare Parts Lists.....	4-111
4.11.9	Repair and Return Procedures.....	4-111
4.12	Database Administration Subject Area .....	4-112
4.12.1	Traffic Database Administration Procedures .....	4-112
4.12.2	Network Traffic Database Management Procedures .....	4-113

4.12.3	NE System Database Administration Procedures .....	4-114
4.13	Billing Subject Area .....	4-115
4.13.1	Capabilities Description.....	4-115
4.13.2	Administration Procedures .....	4-116
4.13.3	Automatic Message Accounting (AMA) Procedures.....	4-116
4.13.4	Supporting Documentation Description.....	4-116
4.13.5	Records Generation Procedures.....	4-117
4.13.6	Test Procedures .....	4-118
4.13.7	Updating Procedures.....	4-119
4.14	Reliability and Quality Subject Areas.....	4-119
4.14.1	Development and Manufacturing Quality Program Descriptions .....	4-120
4.14.2	System Design Reliability and Quality Process Descriptions	4-121
4.14.3	Software Reliability and Quality Process Descriptions.....	4-123
4.14.4	Documentation Quality Control Process Descriptions.....	4-123
4.14.5	Product Support and Field Reliability Program Descriptions .....	4-124
5.	Prepare Draft Documentation.....	5-1
5.1	Overview .....	5-1
5.2	Develop a Plan.....	5-2
5.3	Determine Delivery Requirements .....	5-2
5.4	Prepare Documentation Guide .....	5-2
5.5	Standalone Documents .....	5-3
5.6	Principles of Effective Writing.....	5-6
6.	Verify The Information.....	6-1
6.1	Verify What Tasks Are Required .....	6-1
6.2	Verify How Tasks Are Performed .....	6-1
6.3	Review Technical Details for Accuracy .....	6-1
6.4	Review Audience and Format Requirements.....	6-2
7.	Format and Package the Information .....	7-1
7.1	Format and Structure Characteristics for Electronic and Paper Documentation.....	7-1
7.1.1	Table of Contents.....	7-1
7.1.2	Numbering Pages, Captions, and Units of Text .....	7-1
7.1.3	Information Changes.....	7-2
7.1.4	Other Physical Characteristics.....	7-2
7.2	Electronic Documentation .....	7-2
7.2.1	Functionalities to be Provided.....	7-3
7.2.2	Structure, Format, Content, and Tagging .....	7-4
7.2.3	Screen Format.....	7-4
7.2.4	Type Point Size.....	7-5
7.2.5	Illustrations.....	7-5
7.2.6	Viewing and Printing Documentation .....	7-5
7.3	Paper Documentation .....	7-6
7.3.1	Size and Arrangement of Type on a Printed Page .....	7-6

7.3.2	Type Point Size.....	7-8
7.3.3	Illustrations.....	7-8
8.	Distribute The Documentation .....	8-1
9.	Follow-Up Evaluation .....	9-1
9.1	Overview .....	9-1
9.2	Check for the Appropriate Level of Detail.....	9-1
10.	Update The Documentation .....	10-1
10.1	When to Use an Addendum .....	10-1
10.2	When to Use a Revision .....	10-2
10.3	When to Reissue a Document .....	10-2
Appendix A: Documentation Preparation Process for Procedural		
	Documentation.....	A-1
A.1	An Overview .....	A-1
A.2	Perform Task Analysis .....	A-4
A.2.1	Task Definition.....	A-4
A.2.2	Overview .....	A-4
A.3	Simplified Procedure.....	A-4
Appendix B: A Task-Oriented Practice Approach to Preparing Procedural		
	Information.....	B-1
B.1	What is a Task-Oriented Practice (TOP)?.....	B-1
B.1.1	Essential Elements of a Task-Oriented Practice (TOP) .....	B-2
B.1.2	How is a Listing Used in a TOP? .....	B-2
B.1.3	How are Flowcharts Used in a TOP? .....	B-4
B.1.4	How are Drawings Used in a TOP? .....	B-5
B.1.5	How is Text Used in a TOP?.....	B-8
Appendix C: An Information Mapping Approach to Preparing Procedural		
	Information.....	C-1
Appendix D: How to Best Present Information.....		
D.1	Presenting Various Kinds of Information Within Documents.....	D-1
Appendix E: Network Element Documentation Checklist.....		
Appendix F: Severity Definitions .....		
F.1	Introduction.....	F-1
F.2	Severity Definitions for Switching and Transport Systems.....	F-1
F.3	Severity Definitions for Operations Systems .....	F-3
Appendix G: Binding and Packaging Option for Paper Documentation .....		
G.1	Binding the Documentation.....	G-1
G.2	Packaging the Documentation: An Overview.....	G-2
G.3	User-Oriented Documentation Packaging.....	G-3
References.....		References-1
Glossary.....		Glossary-1

## List of Figures

Figure 3-1.	Relationship between Categories, Subject Areas, and Subsets.....	3-4
Figure 5-1.	Flow Diagram Showing How to Prepare Draft Documentation.....	5-1
Figure A-1.	How to Prepare Documentation: Flow Diagram.....	A-3
Figure A-2.	An Example of Task Analysis: Documentation Preparation Procedures and Development Requirements .....	A-5
Figure B-1.	Example of a TOP Listing.....	B-3
Figure B-2.	Example of a TOP Flowchart .....	B-4
Figure B-3.	Example of a TOP Functional Block Diagram .....	B-6
Figure B-4.	Example of a TOP Schematic Diagram .....	B-7
Figure B-5.	Example of TOP Text .....	B-8
Figure B-6.	Example of a TOP Detailed Level Procedure .....	B-9
Figure C-1.	Example of Information Mapping (Procedure Map) Format .....	C-2
Figure G-1.	Documentation Packaging Details .....	G-2

## List of Tables

Table 3-1 .	Subject Areas and Associated Subsets .....	3-5
Table 4-1.	Subject Area and Subset Documentation Development Requirements Index .....	4-1
Table 4-2.	Example of Feature Index.....	4-13
Table 4-3.	CLEI Code Format .....	4-92
Table 5-1.	Subsets That Must Be Standalone Documents.....	5-4
Table 10-1.	An Example of a Document's Change History Section .....	10-1
Table 10-2.	A Guide to Selecting an Update Format.....	10-3
Table D-1.	A Guide to Presenting Information .....	D-2
Table E-1.	Format Matrix for General Documentation.....	E-1
Table E-2.	Format Matrix for Power Documentation .....	E-2
Table E-3.	Format Matrix for System Capacity Documentation.....	E-3
Table E-4.	Format Matrix for Network Element Interface Documentation.....	E-3
Table E-5.	Format Matrix for Office Records.....	E-4
Table E-6.	Format Matrix for Software Documentation.....	E-5
Table E-7.	Format Matrix for Planning and Engineering Documentation.....	E-6
Table E-8.	Format Matrix for Inventory and Ordering Documentation.....	E-6
Table E-9.	Format Matrix for Installation Documentation.....	E-7
Table E-10.	Format Matrix for Provisioning Documentation.....	E-7
Table E-11.	Format Matrix for Maintenance Documentation .....	E-8
Table E-13.	Format Matrix for Billing Documentation .....	E-9
Table E-12.	Format Matrix for Database Administration Documentation .....	E-9
Table E-14.	Format Matrix for Reliability and Quality Documentation.....	E-10
Table E-15.	Subsets That Must Be Standalone Documents.....	E-11
Table G-1.	Matrix for Choosing a Binding for Documentation .....	G-1
