Telcordia GR-840-Documentation Information

Preface	Preface-1
1. Introduction	1-1
1.1 Purpose	1-1
1.2 Scope	1-1
1.3 Terminology	1-3
1.3.1 Supplier	1-3
1.3.2 Customer	1-3
1.3.3 Network Elements and Network Systems	1-3
1.4 Criteria	1-4
1.4.1 Numbering of Requirement and Related Objects	1-4
1.4.2 Requirement, Conditional Requirement, and Objective Object Identification	1-5
1.5 Document Organization	1-5
1.6 Relation to Other Telcordia Documents	1-6
1.7 Conformance to Requirements	1-7
2. Supplier Support Specification	2-1
3. Engineering and Ordering	3-1
3.1 Engineering and Ordering Process Support	3-1
3.2 Engineering and Ordering Information and Methods	3-1
3.3 Engineering and Ordering Documentation	3-3
3.4 Engineering and Ordering Training	3-4
3.5 Additional and Original Equipment Manufacturer (OEM) Equipment	3-4
3.6 Engineering and Ordering Error Checks	3-5
3.7 Engineering and Ordering Problem Reporting and Tracking	3-6
3.8 Office/Building Records and Drawings	3-6
3.9 Delivery Schedules	3-8
3.10 Engineering and Ordering System Updates	3-8
4. Installation and Removal	4-1
4.1 Installation/Removal Technical Support	4-1
4.2 Workmanship Requirements	4-2
4.3 Training of Installation/Removal Forces	4-3
4.4 Installation/Removal Job Aids	4-4
4.4.1 Documentation	4-4
4.4.2 Office/Building Records and Drawings	4-4
4.4.3 Records of Hardware/Software Changes	4-4
4.4.4 Installation/Removal Job Plan	4-5
4.4.5 Technical Support Bulletins	4-6
4.5 Installation/Removal Progress Reports	4-6
4.6 Installation Tests	4-7
4.6.1 Test Equipment/Hand Tools	4-7
4.6.2 Test Sequence	4-8

4.6.3	Power Up/Power Down Tests	4-8
4.6.4	Initial Assessment Tests	4-8
4.6.5	Load and Volume Tests	4-8
4.6.6	Translations Tests	4-9
4.6.7	Network and Peripheral Tests	4-9
4.6.8	Network Clock Synchronization	4-9
4.6.9	Remote Unit Equipment Tests	4-9
4.6.10	Service Circuits and Miscellaneous Circuits Tests	4-9
4.6.11	Spares Test	4-10
4.6.12	Operational Support System Tests	4-10
4.6.13	Service Recovery Tests	4-10
4.6.14	System Heat Test	4-10
4.6.15	Office Features Tests	4-10
4.6.16	Board-to-Board Tests	4-11
4.6.17	Maintenance Tests	4-11
4.6.18	High/Low Voltage Tests	4-11
4.6.19	Joint Testing	4-11
4.7	Installation/Removal Auditing	4-11
4.7.1	Workmanship Audits	4-12
4.7.2	Functional Audits	4-12
4.7.3	Audit Methods	4-12
4.8	Customer Acceptance	4-13
4.9	Removal	4-13
5.	First Application	5-1
5.1	FA Support	5-1
5.2	FA Site Selection	5-2
5.3	FA Preparation	5-3
5.4	FA Plan	5-3
5.5	FA Scope	5-4
5.6	FA Installation and Test	5-4
5.7	FA Period	5-5
5.8	FA Results Reporting and Feedback	5-5
6.	Technical Support	6-1
6.1	Technical Support Scope	6-1
6.2	Technical Support Availability	6-1
6.3	Technical Support Personnel	6-1
6.4	Technical Support Methods	6-2
6.5	Technical Support Policies	6-2
6.6	Extraordinary Technical Support	6-3
6.7	Technical Support Records	6-3
6.8	Technical Support Escalation	6-3
6.9	Technical Support Monitoring and Feedback	6-4
7.	Spares	7-1
7.1	Supplier's Spares Plan	7-1
7.2	Spares Program	7-2

7.3	Spares Testing	7-2
7.3.1	Factory Testing	7-2
7.3.2	Installation Testing	7-2
7.4	Spares Storage, Handling, and Packaging	7-2
7.5	Emergency Spares Provisioning	7-3
8.	Repair and Return	8-1
8.1	Repair Program	8-1
8.2	Emergency Parts and Equipment Replacement	8-2
8.3	Repair and Return Intervals	8-2
8.4	Testing	8-2
8.5	Compatibility	8-2
8.6	Upgrades	8-3
8.7	Marking of Repaired Products	8-3
8.8	Billing for Repairs	8-3
8.9	Repair and Return Program Auditing	8-4
8.10	Repair and Return Program Reports	8-4
	Requirement-Object List	ROL-1
	References	References-1
	Acronyms	Acronyms-1
