

Table of Contents

1 Introduction

1.1 Purpose and Scope of Document	1-1
1.2 Organization	1-1
1.3 Reason for Reissue	1-2

2 General Information

2.1 General Description	2-1
2.2 Cable Description	2-2
2.2.1 Interoffice, Distribution, and Feeder Cables	2-2
2.2.2 Service Cables	2-2
2.2.3 Premises Cables	2-3
2.3 Cable Reels	2-3

3 Cable Code Designations

3.1 Structure and Format	3-1
3.2 Manufacturer's Designation	3-2
3.3 Fiber Type and Transmission Characteristic Designation	3-3
3.3.1 Fiber Type Designator (S_1)	3-3
3.3.2 Attenuation Categories for Dispersion-Unshifted Single-Mode (Class IVa) Fiber	3-4
3.3.3 Transmission Performance Character for Non-Zero Dispersion-Shifted (Class IVd) Single-Mode Fiber	3-5
3.3.4 Transmission Performance Character for Dispersion-Shifted (Class IVb) Single-Mode Fiber	3-5
3.3.5 Transmission Performance Character for Multimode	3-6
3.4 Sheath Description Characters	3-7
3.5 Installation Load and Copper Pair Character	3-10
3.6 Core Description Characters	3-12
3.6.1 Cable Unit Type Character	3-12
3.7 Unit Size Character	3-13
3.8 Number of Fibers per Cable	3-14
3.9 Application of SOCC to Interoffice and Subscriber Cables	3-14
3.10 Application of SOCC to Distribution and Service Cables	3-16
3.11 Application of SOCC to Premises Cables	3-17

Appendix A: References

A.1 Telcordia Reference Notes	A-1
A.1.1 Contact Telcordia	A-1
A.1.2 Order Documents Online From the Telcordia Information SuperStore	A-1
A.1.3 Telcordia Web Sites for Generic Requirements Information	A-2
A.1.4 Telcordia Licensing Agreements	A-2

Appendix B: Glossary

B.1 Definition of Terms	B-1
B.2 Acronyms	B-3

List of Figures

Figure 3-1	Cross Section of Generic Loose Tube Cable	3-14
Figure 3-2	Cross Section of Generic Ribbon Cable	3-15
Figure 3-3	Fiber Bundle Distribution Cable	3-16
Figure 3-4	Service Cable	3-17
Figure 3-5	Simplex (Jumper) Cable	3-17
Figure 3-6	Duplex Cable	3-18
Figure 3-7	Distribution Cable	3-19
Figure 3-8	Breakout Cable	3-20

List of Tables

Table 3-1	Manufacturer's Designators	3-2
Table 3-2	SOCC Character S_1 for Multimode Optical Fiber Type	3-3
Table 3-3	SOCC Character S_1 for Single-Mode Optical Fiber Type	3-3
Table 3-4	SOCC Character S_1 for Single-Mode Bend-Resistant Optical Fiber Type	3-3
Table 3-5	TIA, ITU-T, and IEC Designations for Single-Mode Fibers	3-4
Table 3-6	SOCC Character S_2 for Dispersion-Unshifted Fiber	3-5
Table 3-7	SOCC Character S_2 for Non-Zero Dispersion-Shifted Fiber	3-5
Table 3-8	SOCC Character S_2 for Dispersion-Shifted Fiber	3-6
Table 3-9	SOCC Character S_2 for 50/125 Multimode Fiber	3-6
Table 3-10	SOCC Character S_2 for 62.5/125 and 85/125 Multimode Fiber	3-7
Table 3-11	Obsolete SOCC Character S_3 for Sheaths	3-8
Table 3-12	Sheath Character S_3 for Buried and Underground Cables	3-9
Table 3-13	Sheath Character S_3 for Special Application Cables	3-10
Table 3-14	SOCC Character S_4 for Outside Plant and Premises Cables	3-11
Table 3-15	SOCC Character S_4 for Aerial Cables	3-11
Table 3-16	Unit Construction Character S_5 for Outside Plant Cables	3-12
Table 3-17	Unit Construction Character S_5 for Premises Cables	3-13
Table 3-18	Unit Construction Character S_5 for Drop Cable	3-13
Table 3-19	Unit Size Character S_6	3-13
