## Table of Contents

1. Introduction . . . . .	1
1.1 Background . . . . .	1
1.2 Script Management Definition. . . . .	<b>2</b>
1.3 Customer Perspective . . . . .	4
2. Functional Architecture . . . . .	7
2.1 Script Creation/ModificationInterface . . . . .	8
2.2 Download Request and DN . . . . .	9
2.3 Service Assignments Datastore . . . . .	9
2.4 Serving SPCS Information Datastore. . . . .	9
2.5 Script Tracking Information Datastore. . . . .	9
2.5.1 Feature Download Numbers . . . . .	10
2.5.2 Security Codes . . . . .	10
2.5.3 Version Numbers . . . . .	10
2.5.4 Service Profiles . . . . .	11
2.5.5 CPE IDS . . . . .	11
2.6 Performance and Usage Measurements . . . . .	11
2.7 ADSI ScriptManagementServer.. . . . .	12
2.7.1 Functional Components . . . . .	12
2.7.1.1 Session Administrator.. . . . .	13
2.7.1.2 Customer Interface, . . . . .	14
2.7.1.3 Script Selection and Compilation. . . . .	14
2.7.1.4 LEC Interface . . . . .	15
2.7.1.5 Scripts or Script Modules Datastore . . . . .	15
2.7.1.6 Script Creation and Modification.. . . . .	15
3. Script Downloads . . . . .	17
3.1 Customer-Initiated Download . . . . .	17
3.2 LEC-Initiated-Off Hook . . . . .	19
3.3 LEC-Initiated-On Hook . . . . .	21
3.4 Repair Service Initiated . . . . .	23
4. Download Security. . . . .	25
4.1 Initial Download . . . . .	25
4.2 Script Updates . . . . .	23
4.2.1 Off-Hook . . . . .	25
4.2.2 On-Hook . . . . .	26
5. Performance and Error Handling. . . . .	27
5.1 Reliability and Performance..... . . . .	27
5.2 Error Checking and Correction . . . . .	27
6. User Interface Guidelines . . . . .	29
References . . . . .	31
Glossary . . . . .	33
