

Separable Electrical Connector Certification

Contents

1. Introduction.....	1-1
2. Certification Assessment.....	2-1
2.1 Applicability.....	2-1
2.2 Certification Offerings	2-1
2.3 Connector Certification Process Summary	2-1
3. Criteria Set	3-1
4. Certification Mark Support	4-1
4.1 Notification and Assessment of Product/Process Change	4-1
4.2 Spot Checking	4-1
5. Test Procedures	5-1
5.1 Design and Construction Analysis	5-1
5.2 Individual Tests	5-1
5.3 Sequenced Tests	5-3
Appendix A: Example of Tests and Required Values	A-1
References	References-1

List of Tables

Table 2-1.	Connector Certification Offerings	2-1
Table 5-1.	Individual Tests	5-2
Table 5-2.	Group 1: Vibration and Mechanical Shock Test Sequence	5-4
Table 5-3.	Group 2: Thermal Shock and Temperature/Humidity Cycling Test Sequence	5-5
Table 5-4.	Group 3: Temperature Life Test Sequence.....	5-6
Table 5-5.	Group 4: Mixed Flowing Gas Test Sequence.....	5-6
Table 5-6.	Group 5: Fretting Test Sequence	5-7
Table 5-7.	Group 6: Repair Test Sequence	5-7
Table A-1.	Individual Tests Example	A-1
Table A-2.	Group 1: Vibration and Mechanical Shock Test Sequence Example	A-2
Table A-3.	Group 2: Thermal Shock and Temperature/Humidity Cycling Test Sequence Example	A-3
Table A-4.	Group 3: Temperature Life Test Sequence.....	A-4
Table A-5.	Group 4: Mixed Flowing Gas Test Sequence Example	A-4
Table A-6.	Group 5: Fretting Test Sequence Example.....	A-5
Table A-7.	Group 6: Repair Test Sequence Example.....	A-5
