CONTENTS

1.0	PREFACE	1
1.1	Introduction	1
1.2	Purpose and Scope of Document.....	1
1.3	Reissuance Cross Reference to Superseded Material	2
2.0	24-TYPE FUSES	3
2.1	Materials	3
2.2	Continuous Current	4
2.3	Rated Current.....	4
2.4	Clearing-Time-Current Test.....	5
2.5	Time-Current Characteristics.....	5
2.6	Resistance.....	9
2.7	Current Versus Resistance.....	9
2.8	Interrupting-Ability	11
2.9	Physical Dimensions.....	11
2.10	Marking.....	12
2.11	Packing and Shipping.....	13
3.0	35-TYPE FUSE	14
3.1	Materials	14
3.2	Continuous Current	15
3.3	Rated Current.....	16
3.4	Clearing-Time-Current	17
3.5	Resistance.....	18
3.6	Alarm Spring.....	19
3.7	Temperature Capability of Construction	20
3.8	Physical Dimensions.....	20
3.9	Marking.....	27
3.10	Packing and Shipping.....	27
4.0	70-TYPE FUSES	28
4.1	Materials	29

4.2	Continuous Current	30
4.3	Rated Current.....	30
4.4	Clearing-Time-Current	31
4.5	Time-Current-Characteristics	32
4.6	Temperature Test	36
4.7	Resistance.....	36
4.8	Temperature Capability of Construction	37
4.9	Interrupting-Ability	38
4.10	Alarm Continuity.....	38
4.11	Alarm Spring Force.....	38
4.12	Alarm Spring Carry Current.....	39
4.13	Alarm Spring Overload.....	39
4.14	Physical Dimensions.....	41
4.15	Environmental (Outdoor Operation)	41
4.16	Indicator Adhesion	41
4.17	Marking.....	42
4.18	Packing and Shipping.....	42
4.19	Flammability.....	43
5.0	GLOSSARY	44
6.0	REFERENCES	45
